Last December's massive under-water 'sinking' of the ocean-bed L in South-East Asia spawned a Tsunami.

I argued at that time that events now dramatically unfolding in the world were linked to that momentous event.

I now write to direct attention to the fact that the city of New Orleans sank by some twenty feet (and is still sinking).

If I am correct, then around the world all eyes should now be focused on Arabia in order to monitor that time.

The blessed Prophet (peace and blessings of Allah Most High be upon him) gave precise information concerning the signs of the Last Day.

Firstly, the prophecy of the blessed Prophet was that a 'Khasf' (i.e., the earth sinks down or caves in) would occur.

New Orleans, on the other hand, sits atop a swampy delta made of unconsolidated material that has washed in from the Gulf.

Signs of the Last Day should stamp themselves on the consciousness of the world, from east to west, as they occur.

Secondly, I was impressed by the location of the events. The first occurred in that east which is clearly enjoined upon us to watch.

Thirdly, I would like to direct attention to the fact that both sinkings occurred at precisely that time when the Prophet said:

*"Every spot on which your foot treads shall be yours", that "your territory shall extend from the wilderness to the wilderness"*  
(Deuteronomy: 11:24-5)

Whoever wrote the above, and then declared that these were the words of Allah Most High, planted a flag.

When Israel wages that great war it would seize not only the Suez Canal but also all the oil of the Persian Gulf.

### **SECULAR SCHOLARSHIP AND THE LAST DAY**

Modern secular scholarship has treated the subject of the 'Signs of the Last Day' for the longest while with indifference.

### **THE THIRD SINKING OF THE EARTH IN ARABIA**

Let us now return to the third 'Khasf', i.e., the third sinking of the earth that we now await in Arabia, and which will be the last.

The third sinking would occur only after signs of widespread political dissent appear in Arabia, caused by the betrayal of the Arab rulers.

Since dissent over that betrayal has already commenced in Arabia, we can now expect increasing widespread dissent.

Prophet Muhammad has informed us that the death of a Muslim ruler would trigger the events which would lead to the third sinking.

At that time of disagreement concerning succession, said the Prophet, a man would emerge out of Madiinah to lead the Muslims.

The Prophet said that an army from Syria would head south to Makkah to attack Imam al-Mahdi, but the Imam would not fight.

When the third sinking of the earth does take place, the world of Islam would suddenly and dazzlingly reappear.

Prophet Muhammad has prophesied that shortly after that sign has occurred, the true Messiah, Jesus the son of Mary, would appear.

But the return of Jesus (peace be upon him) cannot take place until the advent of Imam al-Mahdi. And In
